Simulation: Can you stop a disaster?

Play and learn to stop disasters | UNDRR

Objectives

- ❑Strategy formation is risky and requires a lot of planning and resources.
- ❑In this simulation, you are required to plan and implement a disaster management strategy that could save a village.
- ❑You will learn about the importance of strategy creation and implementation.
- ❑Take some time to discuss and plan with your teammates before making a decision.
- ❑It is recommended that you take notes and record your attempts.

Task:

- ❑ You have 40 minutes to play all levels
- ❑ In the end, you will discuss the following with the class:
  - ❑ Did you get to level 3?
  - ❑ How many times did you fail?
  - ❑ What did you do wrong?
  - ❑ How many attempts did it take you to succeed?
  - ❑ What informed your decisions?
  - ❑ What did you do right?
  - ❑ How much did it cost you?
  - ❑ How many lives did you save?
  - ❑ Your presentation should be as detailed as possible.

Discussions [40 mins]
