ABERDEEN 2040

JB3501 – Business Strategy

Tutorials

2526

Objectives

- This exercise aims to explore the complexities of how different strategies play out in the market.
- It also pushes you to explore how a sequence of strategies might unfold, leading to a longer-term competitive advantage.
- Be ready to present your answers in class.

Group Task

- Students will be assigned one company

- Competitors:
  - Samsung
  - Xiaomi
  - Huawei
  - Apple
  - Google

Task

- ❑ Find out your firm's position in the industry (consider market share, general profit trend and historical achievements).
- ❑ Do the same for other players like Samsung, Xiaomi and Huawei, followed by Apple and Google.
- ❑ Which one is more effective in out-competing the rest? Which market outcompetes the rest?
- ❑ How do you measure which are the winners and which are the losers?
- ❑ Can be local or global context - make it clear!

Present your answers

The End!!
