Group Task: Understanding resources and capabilities in business strategy

- In this tutorial, you will explore the role of resources and capabilities in a firm's competitive advantage.
- You will apply the resource-based view to analyse how businesses utilise tangible and intangible resources to gain and sustain a market position.

Part 1: Identifying resources and capabilities

- ❑ Choose a company
  - SinoPec
  - PingAn insurance
  - China life insurance
  - PetroChina
- ❑ Identify 3 of each
  - Tangible resources
  - Intangible resources
  - Capabilities

Part 2: Applying the RBV

- ❑ Select one resource and one capability from your chosen company in part 1.
- ❑Analyse them using the VRIO criteria to determine whether they provide sustainable competitive advantage.

Part 3: Strategic implications

- ❑ Explain how companies use their resources and capabilities to build and sustain competitive advantages.
- ❑ Discuss how a company can develop new capabilities to respond to market changes (e.g., technological advancements and environmental concerns).
- ❑ What challenges will a company face if they want to imitate your successful business model?

Indicative answer
